

# 1. PixelProof: AI Image Detection

**Türk Telekom · Efe Han Keleş · Computer Science and Engineering**

20 July–18 September 2026 · 40 approved internship days

Internship office: Fatih Sultan Mehmet Mah., Balkan Cad. No:49,  
34771 Ümraniye / İstanbul

**Objective** Detect AI-image evidence while reducing false alerts;  
explore localization of AI edits.

**Deliverables** E92 adaptation using 12,269 training images.  
Local demo and documented experiments.  
Model2 localization remains experimental.

**Development result** Reused data: 159/160 AI detected in each condition.  
Real false alerts: 0/160 original; 14/160 processed.  
20/20 numerical checks; one new AI miss blocked acceptance.
